Website Launch

PSEA is pleased to announce the launch of our new website. We have worked very hard with our web consulting firm, Digital Technique, over the last several months to design a contemporary website that provides functionality, search engine, and navigational capabilities for our members. The site has been reduced from 149 pages to 38 pages, we have created over 50 new frequently used links, and developed sections and graphics easily displayed for the user.

If you have any comments or suggestions regarding the new website please email us through our "Contact Us" page.
