

## Improved website at **pensionsbc.ca** coming later in June

Your pension plan website will soon become a whole lot easier to use. Whether you are a new user or a frequent visitor, we hope you will find the new website to be a powerful tool to help you get the information you need to make decisions about your pension.

This website is for members of the College, Municipal, Public Service and Teacher's pension plans of BC. Here are some of the features you can look forward to:

### Easier navigation...

A pension timeline that follows your career progress. "Breadcrumb" navigation that shows you exactly where you are all the time. Drop-down boxes that give you options for your next move.

### Plan colour background...

Your plan's colour as the background colour for that page. This makes it easier to identify whether or not you are in the correct plan.

### New improved forms section...

A "Forms" section that lists the file size and version date of each document—useful information when downloading forms, so you can be sure you have the most recent version of a form.

### All the contact info you need...

Want to talk to someone about your pension? You will be just a click away from the numbers and addresses you need to contact us.

### What's new? Help?

A "News" section called "What's New." From there you can look up all the recent additions to the website. Plus, a new help section at your fingertips.

Later in June visit **pensionsbc.ca** and see how the new website makes pension information easier for you to use and understand.
